

CCAF Criminal Justice to Bachelor of Science, Criminal Justice

Program Overview

Students in the Bachelor of Science in Criminal Justice degree program learn about issues in crime scene management, terrorism, and law enforcement operations. Students study criminal procedures and criminal law. Computer investigation techniques are also taught to the Criminal Justice students.

Program Outcomes

Upon completion of the program, graduates are able to:

- Propose corrective actions when sensitive data is compromised.
- Critically evaluate the quality and sufficiency of evidence to support a criminal justice argument (case or proposal).
- Integrate scientific inquiry into the analysis of criminal justice issues.
- Analyze human behavior and the impact on crime.
- Integrate ethical group dynamic standards to meet criminal justice operational requirements.

In 2.5 years, through the year-round schedule, you can earn a Bachelor of Science in Criminal Justice.

Concentration outcomes

Students in the Criminal Justice concentration will gain the following additional outcomes:

- Understand the policies and procedures of law enforcement.
- Understand the legal system and court structure.
- Gain knowledge of security and surveillance principles.
- Work with technology to investigate, solve, track, and deter crime.

***ECPI is a Category III partner and requires students to complete more than 60 semester hours of credit beyond the AAS but meet all other AU-ABC specifications.**

**** The college may accept credits from an institution recognized by the Council of Higher Education Accreditation (CHEA). ECPI will accept credit toward a degree or certificate for satisfactory performance on**

the Advanced Placement of the College Board (AP), College-Level Examination Program (CLEP), and Defense Activity for Non-Traditional Support (DANTES) exams. Prospective students should contact the college for a list of exams that apply to CLEP and DANTES. A minimum score of 50 is required to receive transfer credit.

***In addition to courses listed under Advanced Technical requirement, a student's scheduled may consist of other courses in this concentration or other concentrations. The Advanced Technical requirement is 15 credits. Students can satisfy the credit requirement by transferring applicable courses from their CCAF Technical Electives and taking a combination of courses listed in the Advanced Technical section of the degree plan.
