

# Credit for Industry Certifications and Professional Examinations

Students can earn credit for the certifications/examinations that are valid at the time of enrollment if the student has completed them within the past 3 years.

Please note: Certification and examination credits outlined below may be updated periodically due to academic revision and curricular alignment. All credits are awarded on an individual student basis.

**NOTE:** ALL certifications applicable to CIS courses require relevant work experience in the areas of certification to satisfy the practical component of ECPI courses.
