

CRIME & INTELLIGENCE ANALYSIS

CONCENTRATION

Like most professions, criminal justice has been deeply shaped by technology. Investigators now rely on such tools as geo-technology, forensics, risk assessments, and crime mapping to predict, prevent, and solve crime. If you want a career that blends your fascination with computers with your desire to make a difference, consider Crime and Intelligence Analysis.

ECPI University's Bachelor of Science Degree in Criminal Justice with a concentration in Crime and Intelligence Analysis could provide you with a comprehensive homeland security, intelligence, and digital forensic training experience that could prepare you to work in this exciting profession. Our program incorporates intelligence theory and investigative philosophy with collaborative decision making processes for crime analysis and intelligence scenarios, simulated exercises, case studies, and lab-based exercises.

Outcomes

Upon successful completion of the program, graduates are able to:

- Apply ethical standards across professional and personal settings
- Evaluate the quality and sufficiency of evidence in the criminal justice process
- Analyze the impact of human behavior on crime
- Assess criminal justice issues using modern techniques including technology
- Apply the skills needed to manage crisis within various populations
- Evaluate emergency operations plans
